### THE PENINSULA PRACTICE

Travelling Abroad - Thinking of travelling abroad at the last minute? Hoping to book a fantastic deal on the internet? Or get a bargain at the travel agents? That would be great, but PLEASE REMEMBER we do not have last minute appointments. You need your vaccines at least eight weeks before departure. You need to book a travel appointment with a nurse for an **initial consultation** - we will inform you of any vaccinations needed. This may mean more appointments as we do not stock all travel vaccines and some vaccines cannot be given together.

### ARCHAEOLOGICAL EXCAVATIONS OFF FERRY ROAD

Many of you will have walked or driven past the archaeologists working in the field to the east of Ferry Road. You may also have seen a second excavation has recently started up across the road. It is expected excavations will continue over the summer as the archaeologists work to record the numerous features revealed across the two sites.

The excavations are part of the planning requirements for the East Anglia One underground cable route and are funded by ScottishPower Renewables. Wardell Armstrong Ltd are the main archaeological contractor, working with Suffolk Archaeology, Cotswold Archaeology and Archaeology Wales. The excavations are conducted within parameters set by Suffolk County Council's Archaeological Service and Historic England.

The archaeological work is still at a very early stage so it is difficult to say with any certainty what the final results will show. The full significance of an archaeological site is usually only apparent once the fieldwork has been completed and extensive post excavation work is undertaken to bring together and analyse all the findings and artefacts. So far, the excavation has revealed the area off Ferry Road has been in use from the Iron Age, through the Roman period and into Medieval times. People in the past seemed to be intent on digging and re-digging field boundaries, ditches and pits, making for a dense collection of features which need to be excavated and recorded.

Naturally, there is a great deal of local interest in the excavations. You can meet some of the archaeologists working on the two sites at an Open Day in Bawdsey Village Hall on Sunday 6 August, 10.00am-4.00pm. In the meantime, if you have any questions about the excavation work please contact Claire Halley, Education & Outreach Officer at Wardell Armstrong on [challey@wardell-armstrong.com](mailto:challey@wardell-armstrong.com).

### BAWDSEY SCHOOL NEWS

It has been a very busy and exciting academic year at Bawdsey CEVCP School: the pupils have had a wealth of amazing experiences, like a residential trip to France, robotic programming at BT, visiting the Harry Potter studio tour, performing at Snape, country dancing for KS2 and a Hedgehog and Turtle Dove day. We have also been successful in our SATs results again this year and for next year we are opening our Nursery to two year old children as well. We would like to thank all the parents, carers, families and wider communities for supporting us and helping us in making Bawdsey school the 'Hidden Gem' on the Peninsula.

### COMMUNITY LAND TRUST – WHAT THAT MIGHT MEAN FOR THIS AREA

It's often very difficult for local people to find somewhere to live in our coastal villages. However, there is an opportunity, through Suffolk Coastal District Council, to use some Government funding towards providing affordable housing. The conditions attached to releasing the money mean that local communities must set up a Community Land Trust which could work with a Housing Association to address local need. The good news is that this has been discussed in Parish Council meetings and representatives from the villages of Bawdsey, Hollesley and Shottisham have already expressed a willingness to see if they can make this opportunity work.
