The Residents
Bawdsey & Alderton
IP12

Dear Resident,

RE: THE POWER – FILMING IN BAWDSEY UPDATE.

Firstly, I am writing to thank you for your patience and understanding over the last couple months. Secondly, I want to update regarding the final preparations regarding the filming at Barn Field. They are as follows:

1. Due to us lifting the trackway and laying a new road, we plan to close the access to Bawdsey Beach along the Martello Tower concrete driveway from **Friday 16th July.**
2. **Between 31/7/21-1/8/21** all our large unit and technical vehicles will be coming through the village to park up at our unit base, which will in the field behind the Martello Tower driveway. Please see the attached map below for details.
3. In preparation of these unit vehicles arrival, we would like you, the residents not to park your cars on the road while the unit vehicles are moving in. Please refer to the map below where the area is outlined. This is to limit any disruption as this is a very narrow stretch of East Lane.
4. We will also be encouraging cars on the B1083 to park on one side of the road during this period. This is again to help minimise congestion while the vehicles are due to arrive and reduce the number of blind spots along this stretch.
5. Between Bawdsey and Alderton we would like to repeat the same process of asking you the residents and visitors to keep to one side of the road while parking over the weekend.
6. On the corner of Hollesley Rd, we will be asking residents and visitors not park on the corner. As we need to allow enough room for our largest vehicles to make the turning and limit any risks.
7. We will be following the same process of keeping the corner of Woodbridge Rd clear of cars for unit and technical vehicle access.

8. From this Friday, our crew cars will be parking up at the RAF Bawdsey A Site and we will then be ferrying them down to location via minibuses. **The drivers are keenly aware that they are to keep to a speed limit of 20mph. Advisory speed limit signs are also due to be put up soon via a local Traffic Management firm.**
9. **FILMING SCHEDULE: Nightshoots** from Monday August 2nd -Saturday 21st August (The final Saturday is the only weekend day due to be worked).
Dayshoots: Tuesday 24th -Friday 27th inclusive.

I can also confirm that the previously planned use of a helicopter for 2 of the nights has been cancelled.

I shall continue to update you with any further information when I have it. Meanwhile you can contact me on my mobile (07850 729089) or Rachel Aldridge/Jim Horsfield at Screen Suffolk and they will relay your message to me.

Best wishes,

David Kennaway
Location Manager
