

Bawdsey Landfall Site visit

3 July 2018

- HDD under River Deben now completed
- Cables are now coming into landfall site from the North Sea

- Landfall site drilling due to finish soon
- Drill heads are individually made for each project
- Cost of complete drilling rig approximately £3.5m
- Cost of drilling rig on site £45-£50k per day
- Life expectancy of a drilling rig is 7 years
- Customer Liaison Officer, Nikki Berry, was asked whether there was any possibility of Bawdsey being used again as a landfall site for EA1 North and EA2 windfarms, she responded emphatically that it would not
